Newborn to 1½ years with parent/caregiver present

CLASS DESCRIPTIONS

Family All Around Me

To your little ones, “family” means everyone who loves them! They are often surrounded by family members, friends, and other loving caregivers who look after them and shape their days. **Family All Around Me** celebrates these bonds and offers lots of opportunities for fun, connection, movement, and instrument play.

Rain or Shine

Up the water spout, down the water spout, you know how it goes. In this unit, the children in your class will use their senses to explore the sights, sounds, and feelings of sunny days, rainy days . . . all kinds of days! And we'll throw a little math in there, too. **Rain or Shine**, get ready for some fun!

Marvelous Me

At this amazing developmental moment, children are basking in the comfort and security of caregivers, but also testing the boundaries of independence. Suddenly able to do so many new things on their own, they are still dependent for so many others. In **Marvelous Me**, you'll move your bodies, use your senses, and explore friendship, favorite things, and feeling good about all the amazing things you can do.

(Toddlers ages 18mos-3yrs)

Up in the Sky

Ready for a flight of fancy? It's time to explore all of the floating, flying, fluttering things we can find **Up in the Sky**. We'll use our imaginations to fly kites, stretch like clouds, and dance like stars. We'll hop and fly with a flock of robins, soar with a wise old owl, and see the silver moon boat sail across the sky. Fire up your imagination, because we mean it when we say...the sky's the limit!

(Toddlers ages 18mos-3yrs)
